

## **Paint/Sculpt Out on Canyon Road, Santa Fe October 15th from 11-3pm**

Martinez Studio welcomes Brian Barreto to demonstrate marble sculpting outside our gallery at 223 Canyon Road, Santa Fe.

Barreto will mount an exhibition of his work at the gallery next May exhibiting figurative sculpture in marble, metal, and minerals.

Having studied in Germany and the US, Brian Barreto pursues novel forms and engagements — current themes explore transformational body forms, reliquary, and recontextualizing iconography from the past into a contemporary discourse. The studio is accepting commissions and new students for private instruction for 2023.

Please visit our Atelier at 2219 NM 68 in Rinconada; also home to Alluvial, a collective project space and gallery they host for monthly cultural events, workshops, and residencies.
